Andrew S. Johnston
Executive Secretary
Maryland Public Service Commission
William Donald Schaefer Tower
6 St. Paul Street, 16th Floor
Baltimore, MD 21202

RE: Senate Bill 1 – Accounts Receivable Related to Residential Electric and Gas Supply: Administrative Docket PC 65

Dear Secretary Johnston,

Earlier this year, [approximately 3,000 consumers called on the Maryland legislature to oppose Senate Bill 1](#), legislation purportedly aimed at enhancing customer protection but ultimately undermining the competitive market dynamics. The bill was rushed through the legislative process without consumer input, offering scant safeguards for consumers and a restricted form of market that stifles consumer choice rather than fortifies it.

There are many reasons why customers choose to participate in the retail market, including certainty, varied products and services, and better customer service. But regardless of why customers choose to shop, they do so knowing that it will not change how they are billed and pay for their energy usage. Customers who are currently on competitive supply expect to receive a single bill from their utility that includes retail supply charges. While SB 1 prohibited purchase of receivables for customers who enroll on or after January 1, 2025, it did not contemplate that customers would be forced to receive separate bills for distribution and supply service. When customers exercise their right to choose a supplier, utilities should be required to continue providing one bill for electricity and/or natural gas service. The Commission should not unilaterally change this arrangement when it was not suggested or required by SBI. The Commission should ensure that customers' current

contracts and experience are not interrupted or cancelled. Forcing customers to pay two bills or to return to utility default service is anti-choice and anti-consumer.

Nearly 1,000 Maryland consumers signed a petition calling on the PSC to preserve utility consolidated billing as it implements SB 1. The language of the petition and their names are included as Attachment A.

Respectfully submitted,

Chris Ercoli
President and CEO
Retail Energy Advancement League

Attachment A

Petition to the Maryland Public Service Commission and Commissioners Against the Implementation of “Dual Billing”

As a Maryland resident, I deserve the right to choose a retail electric or gas supplier instead of the standard offer from a utility. Senate Bill 1 (SB1) was marketed as consumer protection but instead bans many of the energy products and services chosen by the 300,000 Maryland customers who shop.

Customers choose to participate in the retail market for many reasons, including price certainty, value-added products and services, clean energy, and better customer service.

The legislation clearly states that existing contracts should be honored. As the Maryland Public Service Commission (PSC) complies with this legislation, please ensure that current agreements between suppliers and customers are protected and not canceled.

The legislation does not impact the customer billing structure, but Maryland utilities have proposed that the PSC use the enactment of this legislation to require customers to receive two separate bills (aka “dual billing”). This is a terrible idea.

One of the benefits of enrolling in my current energy plan is that I get the product I want and the ease of receiving a single bill that outlines the charges from the utility and the supplier.

Dual billing means that shopping customers will be forced to receive and pay an additional invoice for distribution and supply service when they can receive a single bill today. This creates unnecessary hassle and potential confusion, resulting in fewer customers being willing to participate in the shopping process.

The PSC should not use the implementation of SB1 as an opportunity to change the system further. Please ensure customers’ current contracts and experiences are not interrupted or canceled. Forcing customers to pay two bills or to return to utility default service is anti-choice and anti-consumer.

Customers who choose their energy supplier should continue to receive one bill. It’s that simple.
